PRU SEND Policy

RATIONALE

At the PRU we are committed to ensuring equal treatment and opportunities for all learners and are committed to offering an inclusive curriculum to ensure the best possible progress for all whatever their needs or abilities.

The Special Educational Needs and Disabilities Code of Practice (2015) states that all students and young people are entitled to an education that enables them to make progress so that they:

- Achieve their best
- Become confident individuals, living fulfilling lives
- Make a successful transition into adulthood whether into employment, further or higher education or training

The Code of Practice also provides an overview of the range of needs which is divided into 4 broad areas:

- Communication and Interaction
- Cognition and Learning
- Social, Emotional and Mental Health Difficulties
- Sensory and, or Physical Needs.

Our school believes that all students with a Special Education Need or disability (SEND) must have their needs recognised, assessed and appropriate and effective intervention put in place. All staff have due regard, as part of their professional standards and duties, to promote equality.

DEFINITION OF SPECIAL EDUCATIONAL NEEDS and DISABILITIES (SEND)

Children with special educational needs (SEND) all have learning difficulties or disabilities that make it more difficult for them to learn or access education than most children of the same age. These children may need extra or different help from that given to other children of the same age.

Special education needs could mean a child has difficulties with:

- Academic work
- reading, writing, number work or understanding information
- expressing themselves or understanding what others are saying
- making friends or relating to adults
- behaving appropriately in school
- organising themselves
- sensory or physical needs.

Ref: DfE Special Educational Needs Code of Practice

At the PRU, our experienced staff use; observations, extensive SEND knowledge and experience and the advice and recommendations from external professionals to identify and assess pupil's individual needs. This enables us to plan bespoke and personalised education for all of our pupils.

INCLUSION

Inclusion: providing effective learning opportunities for all learners.

The three principles for inclusion are:

- ✓ Setting suitable learning challenges
- ✓ Responding to learners' diverse learning needs
- ✓ Overcoming potential barriers to learning and assessment for individuals and groups of learners

Through appropriate curricular provision, we respect the fact that children:

- ✓ have different educational and behavioural needs and aspirations
- ✓ require different strategies for learning
- ✓ acquire, assimilate and communicate information at different rates
- ✓ need a range of different teaching approaches and experiences

Teachers respond to children's needs by:

- ✓ providing support for students who need help with communication, language and literacy
- ✓ planning to develop children's understanding through the use of all available senses and experiences
- ✓ planning for children's full participation in learning, and in physical and practical activities
- ✓ helping students to manage and own their behaviour and to take part in learning effectively and safely
- ✓ helping individuals to manage their emotions, particularly trauma or stress, and to take part in learning.

SAFEGUARDING

We are committed to create and maintain a safe learning and working environment for all learners and staff and, where there are child welfare concerns, taking action to address them, working in partnership with other organizations and agencies, where this is appropriate.

Our core standards for promoting the welfare of the PRU community are listed in our Safeguarding Policy.

PURPOSES & OBJECTIVES

- ✓ To provide a secure and caring environment where every learner is encouraged to reach his/her potential
- ✓ To provide a whole PRU approach to promote positive behaviour and emotional well being
- ✓ To identify the specific needs of every learner and have a team approach to meeting the need through SEN Support Plans and Pupil (SMART)Targets, to ensure that all learners make the best possible progress
- ✓ To provide a broad, balanced and relevant curriculum, reflecting the national curriculum but adapting it, along with differentiation, to cater for the academic, physical and emotional needs of the learners
- ✓ To enhance the formal curriculum by providing a wide range of experiences, to prepare pupils for their transition to specialist provisions or re-integration to mainstream.
- ✓ To promote all possible opportunities to enter for external examinations and achieve accreditation
- ✓ To facilitate diagnosis and assessment which can inform decision-making about continuing and future careers
- ✓ To promote a multi-agency approach in addressing the diverse and complex needs of some of our learners
- ✓ To involve parents/carers and encourage their participation in decision-making related to future educational provision

To take into account the views of the learners and involve them in decision-making, as far as is feasible

Northumberland PRU follows the guidelines of the Code of Practice 2014

- ✓ The Code of Practice (revised 2015) covers the 0-25 age range and includes guidance relating to disabled children and young people as well as those with SEND
- ✓ There is a clearer focus on the participation of children and young people and parents in decision-making at individual and strategic levels
- ✓ There is a stronger focus on high aspirations and on improving outcomes for children and young people
- ✓ It includes guidance on the joint planning and commissioning of services to ensure close co-operation between education, health and social care
- ✓ It includes guidance on publishing a Local Offer of support for children and young people with SEN or disabilities

There is a greater focus on support that enables those with SEND to succeed in their education and make a successful transition to adulthood - DfE SEND Code of Practice – Guide for Parents and Carers Aug 2014

EDUCATION HEALTH CARE PLANS (EHCP) appendix 1 Pg-141-206

A school or caregivers can apply for and Education, Health and Care (EHC) needs assessment when the child has not made expected progress against their expected outcomes.

An EHCP is a legal document, which was introduced with the principle of a person-centred approach to supporting children and young people aged 0-25 years. The EHCP is a single document that describes the child's strengths and needs in a multi-disciplinary and holistic way. The voice of the child and the caregiver is fundamental in the application for an EHCP; they must be co-creators in the process.

The purpose of an EHCP is: to make special educational provision to meet the SEND of the child or young person; so as to secure the best possible outcomes for them across education, health and social care, and, to prepare them for adulthood.

PROCEDURES IN NORTHUMBERLAND PRU

The Management Committee have identified a governor to have oversight of special educational needs provision in the school to ensure that the full governing body is kept informed of how the school is meeting the statutory requirements. The identified governor will meet regularly with the Head and SENCO (For roles of governing body CoP Section 1:16 - 22, 1:39.) to ensure that the school is adhering to Government Legislation.

The Head of School is the school's "responsible person" and manages the school's special educational needs work. The Head will keep the governing body informed about the special educational needs provision made by the school.

The SENCO/ Head of School will work closely with the special educational needs governor and staff to ensure the effective day to day operation of the school's special educational needs policy. The SENCO and Head will identify areas for development in special educational needs and contribute to the school's development plan. The Head teacher will co-ordinate provision for SEND pupils at all stages of the EHCP process. (See CoP Section 5:30, 6:32)

All teaching and non-teaching staff are responsible for differentiating the curriculum for pupils with special educational needs and will monitor pupil's progress (see Quality First Teaching). All teachers will review and monitor the progress made by pupils in their group and the effectiveness of resources and other curriculum material. All staff will work closely with the SENCO.
