

Dear Parent / Carer,

Lexonik Leap and Lexonik Flex is a teaching programme that teaches learners to read for knowledge. It is aimed at those who have real potential, and we are delighted that we are now delivering it at The Northumberland Pupil Referral Unit.

We set high expectations for all our learners and strive to ensure all achieve what they are capable of and realise their full potential. We believe that Lexonik will help them achieve their goals in all aspects of their life.

The programme trains learners to decode words quickly and effortlessly. It teaches them the complexities of the English language allowing them to develop a deeper understanding of complex vocabulary.

Your son/daughter will be attending Lexonik Flex sessions in the coming weeks. The course is challenging, very fast and FUN!

We are excited to be able to offer Lexonik Leap and Lexonik Flex to our learners and look forward to hearing about their progress.

If you would like to find out more about either Lexonik Course, please visit www.lexonik.co.uk or speak to Mrs Turnock who is the member of staff responsible for coordinating the programme at Northumberland Pupil Referral Unit

Kind regards,

N Turnock

Mrs N Turnock
